From the Group Director's Desk

India has been a major seat of learning for thousands of years. The country was home to both Takshashila, the first university in the world, and Aryabhata, the inventor of the digit 0.

Lately, India has undergone a paradigm shift owing to its competitive position in the world economy. The Indian economy is on a robust growth trajectory and boasts of a stable growth rate, rising foreign exchange reserves and booming capital markets among others.

Higher education in India has been a continuous facilitator of innovation, creativity and leadership to the global industry. Some of the world's leading companies are being headed by graduates of the Indian education system such as Satya Nadella, CEO, Microsoft, Sundar Pichai, CEO, Google Inc., Ajaypal Singh Banga, President World Bank Group, Rajeev Suri, Ex-CEO of Nokia, Indira Nooyi, Ex-CEO of Pepsi Co. to name a few.

We are fortunate to have key stakeholders, such as policymakers, diplomats, experts, industry professionals, members of the academia and our esteemed alumni in the industry, among others, championing the cause of education.

There has never been a better time for management students to start their careers in India. With the right skills and knowledge, you can take advantage of the many opportunities available and help drive the country's continued economic growth.

The vision of the NEP aims at building a global, high quality education system rooted in Indian ethos, thereby transforming India into a global knowledge superpower.

The Indian economy is growing at a robust pace and is poised to become one of the largest economies in the world. This growth has created a huge demand for skilled and knowledgeable management professionals who can help drive the country's continued economic development.

As a leading B-school, we have a crucial role to play in shaping the future of education and in preparing our students to become corporate leaders. We are committed to stay ahead of these changes and to providing our students with the skills and knowledge they need to succeed in a rapidly changing world.

Over the course of the program, your fellow students become trusted colleagues and, very often, lifelong friends. I invite you to embark on your path to academic and professional excellence at our sprawling campuses in Mumbai and Bengaluru which will truly enhance your intellectual and personal growth. Keeping design and innovation its core, WeSchool endeavors to provide newer avenues to students for achieving excellence in all spheres of life and nurture them to become Global Citizen Leaders.

Prof. Dr. Uday Salunkhe
Group Director, WeSchool

Vision

To nurture thought leaders and practitioners through inventive education.

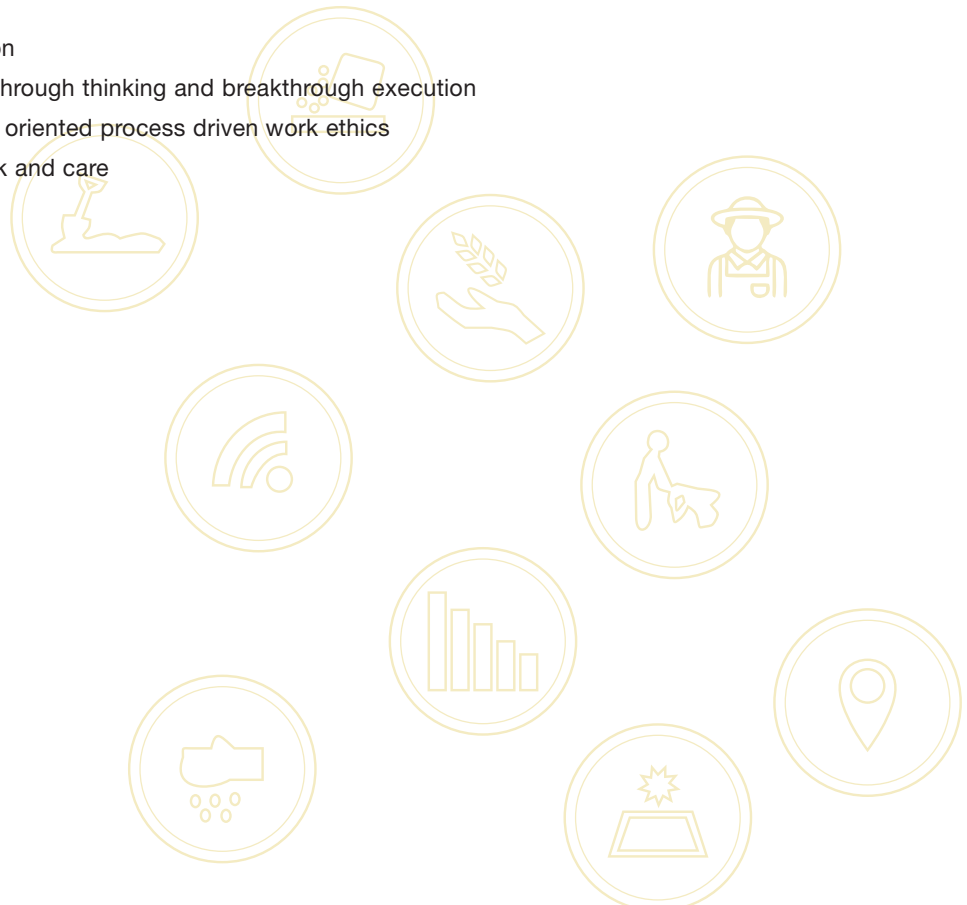

Mission

- Focus on inventive education by offering practical, innovative and technology driven programs.
- Provide managerial talent with risk managing ability, passion for learning and creative thinking and values in rapidly evolving economic and social environment.
- Contribute significantly to Indian corporate world by preparing Management graduates with global mindset.
- Build intellectual capital through faculty development, research, consultancy and publication.
- Develop alumni network of mutual benefit and keep alumni update through continuous learning and meeting.

Core Values

- Passion
- Breakthrough thinking and breakthrough execution
- Result oriented process driven work ethics
- We link and care

Program Vision

“Creating corporate managers with rural insights”

This vision of the program emphasizes on the increasing role played by rural sector in the Indian economy, leading the way for innovation, entrepreneurship and growth. As businesses see the value of rural India in creating and sustaining growth, skilled managers are needed to drive the business in distant, untested markets. These managers require the skills, knowledge and attitude to work for such organization, creating value for businesses as well as rural communities. The Rural Management Program at WeSchool synergies this unmet need of the market.

Program Mission

The Program is dedicated to enriching students' lives by providing modern education synergised with rural sector knowledge and practical experience, with added emphasis on developing a broader outlook and leadership qualities by focusing on:

- **Contemporary Education:** To develop a curriculum in tune with emerging trends in industry and in Rural sector.
- **Broader Outlook:** To facilitate the students' understanding of the Rural enterprises in the broader context of Economic Policy.
- **Practical Exposure:** To enable the students to engage with Rural Businesses by imparting specialized classroom-training backed by practical, field-level experience.
- **Leadership Qualities:** To create / Nurture future managers with leadership skills, innovation skills and ability of application of technology in businesses.

Program Educational Objectives

The PGDM-Rural Management program curriculum is designed to achieve the following Program Educational Objectives :

- The program will enable students to work effectively in management roles in rural businesses / industry verticals in existing and emerging markets in finance, sales, marketing and operations.
- The program will provide ability to develop empathy, tenacity, multitasking skills and ability to communicate with rural communities as well as business functionaries in rural focused companies
- The program will enable students to actively contribute to value creation that requires cutting edge knowledge of the sector and effective use of empowering technologies for rural communities.

FINANCE
OPERATIONS
MULTITASKING
RURAL COMMUNITIES
DEVELOP EMPATHY SKILLS
BUSINESS FUNCTIONARIES
EMPOWERING TECHNOLOGIES
CUTTING EDGE KNOWLEDGE
MARKETING SALES
DEVELOP EMPATHY
RURAL FOCUSED COMPANIES
TENACITY

Program Specific Outcomes (PSOs)

Rural-Tech: Students will be able to demonstrate transformational changes in the rural sector to achieve business value and to solve business problems in an effective manner with the help of technology.

Why Rural Management?

As urban markets are becoming saturated, rural markets hold the potential for future growth. There is a shortage of trained business managers who understand the pulse of the rural sector and can provide businesses with insights into this emerging market. This has resulted in a sustained demand in the corporate sector for Rural Management specialists. The sunrise sector, touted as the growth engine of the future, is expected to boom and employ the majority of the world's workforce in the coming years.

What is Rural Management?

Rural management is the application of management principles to rural-facing businesses in order to create sustainable wealth in an inclusive and empowering way. It focuses on the holistic integration of people and businesses with value creation for bottom of the pyramid masses.

Program Overview

Professionally trained and skilled Managers, with Rural perspective, are essential to create and manage businesses, aiming for long term sustained growth, for rural-facing companies, cooperatives, development sector organisations and government agencies etc. and thus become potential growth catalysts for India, rural India in particular.

WeSchool's PGDM-Rural Management program aims to develop a young cadre of market ready Rural Managers for these challenging opportunities.

The Rural Management program graduates have wider career scope across industry verticals due to in-built features of the program which develop in them broader adaptability, holistic view, higher tenacity, empathy, grassroots level knowledge of rural India and expanding rural markets across the country.

Since the start of the Rural Management program in 2012 at WeSchool, it has been well received by both students and recruiters, as seen from students' preference and recruitment trends. Contrary to popular belief, the career prospects in the Rural market space span way beyond agri-business and spread across various industries and sectors such as BFSI & Fintech Companies, FMCG & consumer durables, IT & ITES, Telecom, Manufacturing, Energy, Infrastructure, E-Commerce and other Digital domain companies to name a few.

Program USP

Innovative and Transformative Pedagogy

The Rural Management program uses an innovative approach to learning and experiencing the grassroots through rural field studies, study tours, industry visits, international exposure through guest faculty, site visits and extensive interaction with the industry.

The transformative pedagogy includes lectures, on-field rural projects, industry visits & research experience through rural internships and provides premium knowledge of Rural Management along with the skills of general management which is delivered by highly acclaimed academicians and renowned Industry experts from top listed companies.

Simulation Games

To enhance the student learning, the programme introduced rural management-based simulation games "Naranpur Express Game". This served as a means to understand the complexity and dynamics of rural markets before their field component exploring the grassroots.

Extensive Experiential Learning

The major distinguishing feature of this 2-years Program is an embedded rural internship of 4 months, which provides a dedicated practical exposure to the needs and aspirations, lifestyles, culture & beliefs of the people residing in the smaller towns and villages of India. The uniqueness of the program is its focus on value creation through development of sustainable business models in the rural space.

5 days

Exploring the Grassroots-I

10 days

Exploring the Grassroots-II

60 days

Summer Internship in Rural Sector with companies

45 days

Academic Research Project in Rural Sector

Industry Exposure

Students are placed across industries, verticals and roles. Strong network with corporates/industries/academic institutes is maintained. 100% of students go for summer internships. The Institute has an industry engagement model during summer internships where every student is provided an internal faculty mentor who engages with the industry mentor to guide the student towards delivering an excellent project outcome. As part of the student induction process, the Rural Management programme has an industry immersion module also.

Exploring the Grassroots

The rural immersion learning based course designed to address the need to make future business managers and policy makers sensitized towards the people at the grassroots. It provides hands on experience of the 'Bottom of the Pyramid' people, understanding the consumer needs and the market potential. It gives them an opportunity to experience the ecosystem, the economy, the social structure and the life at grassroots level in an Indian village.

Rural Round Table Conference-'AuRuM'

'AuRuM' - A rural theme based roundtable conference in partnership with the industry is organized annually by the core team of Rural Management at WeSchool. It provides a platform for interaction between industry and WeSchool in the rural space for knowledge sharing and ongoing relationships for mutual benefit. On a neutral platform, the industry shares its wisdom and innovative ideas with other stakeholders.

International Exposure

Students get various international opportunities ranging from international internships to interactions with Consulate members to participating in international competitions.

Consul General of South Africa.
Opportunities in South Africa for Rural
and Agri Career business professionals

Bart De Jong-Consulate General of the
Kingdom of the Netherlands

Global Citizen Leader Program (GCL)

GCL program a unique field project based initiative for integrated learning in the curriculum and provides students with inputs on leadership & innovation through design thinking. It strikes a balance between the creative problem-solving skills of an innovator and the soft skills of a leader. Students are well equipped to lead others in developing solutions to problems & issues which have significance to business and the society at large. Most of the projects are based upon 'Challenge Statements' sourced from corporates. Some of such notable projects are:

- How may we develop innovative commercial agribusiness model for hydroponic crops, with focussed market analysis for Domestic and Export markets.
- How may we prepare a sustainable business plan for a seed company to face the impact of climate change issues on their business?
- Impact on rural consumer behaviour due to changing technology and online marketing in agricultural irrigation combined with solar power
- Developing a prototype of Urban Mushroom farming for Mumbai

Agri-lab

Weschool has a facility created for rural management programme – Agri-lab which expose students to different agriculture inputs and models.

Rural Clubs

Rural Management students at Weschool imbibe the rural insights through multiple initiatives like Gram Samachar-Students' Newsletter, Samachar-Movie Club, Talking Heads, Debate Club, Book club which together forms a vibrant industry-academia interface for learning.

The **Gram Samachar-Students' Newsletter** was first launched in 2018 by the PGDM-Rural Management (Emerging Economies) students of Batch 2017–19. It is a monthly magazine; of the students, for the students and by the students. It embodies the philosophy of WeSchool's Rural Management program: empathetic, tenacious and persuasive transformational leadership.

The **Sanchar-Media club** assists students in giving them practical and industry exposure in a variety of program verticals through documentaries, brief pertinent films, expert talks and entrepreneurial talks. After seeing the videos, there is conversation focused on what was learned, what was the take away and what was observed. Additionally, the members also post a variety of events and activities organized by the rural team and students on the programs LinkedIn profile.

Talking Heads club, A series of guest lectures has been launched by PGDM-Rural Management (Emerging Economies), with the goal of educating students to meet the issues they would confront in the workplaces. These special input sessions prepare our students so that they are not just theoretically educated but also practically equipped, given the rapid rate of our progress and the gradual replacement of our daily lives by technologies like drones and driverless cars. Thus, it helps our students become international leaders and professionals by adopting global practices.

Book clubs foster a love of reading in a supportive setting. It helps in developing reading habits with more deep understanding and with diverse perspectives. This builds and reinforces relationships. It also makes a student more comfortable and confident in professional discussions.

Debate club helps to enhance the sectoral knowledge of students on contemporary issues. It helps strengthen critical thinking ability in students and to develop effective communication skills in students. Students will be able to generate coherent logical statements on a topic or issue using secondary research. Students will be able to compare ideas, concepts, investigate and find evidence to generate and support logical statements.

Program Structure

PGDM (Rural Management) program provides students core management curriculum across all domains in the 1st year along with immersive courses on rural ecosystems inside classrooms and on field.

The rural courses are foundational, followed by increasing levels of learning as the students progresses through the year 1 with focus on all main verticals in rural business environment. Year 2 includes a spectrum of electives that allow students to choose from within a bucket of domain related courses of their choice along with Rural focused courses that give deeper knowledge of a rural facing business vertical.

On successful completion of the PGDM-Rural Management (Emerging Economies) program, student are expected to arrange as Corporate Manager with leadership qualities and innovative mindset, able to think out-of-the-box and find ingenious solutions to the problems faced by the rural sector, based on deep insights in rural emerging markets.

Curriculum

The course spans across 6 trimesters having 37 core courses and 6 – 8 electives, along with 6 immersive project-based courses, which totals 103.5 credits. Apart from these we have regular workshops, industry visits and other activities to complement the classroom pedagogy.

Alumni Testimonials

“

I completed summer internship at Amul and worked on a project titled “Pan-India Marketing Plan for Amul's Cattle Feed”. As the sales team lead, I carried out awareness and activation programs in the villages of Bhavnagar District of Gujarat which resulted in an increase in sales by 170%. This gave me the confidence and enhanced my skill set resulting in my placement in ICICI Bank. After a successful stint there I am currently working as Relationship Manager at Yes Bank, wherein everyday I interact with decision makers from various industries. This is just the beginning.

**- Akshay Sadalge (PGDM-Rural Management 2014 - 16, WeSchool Mumbai)
Relationship Leader, Yes Bank**

”

“

My summer internship at Pidilite taught me a different perspective about the rural sector while observing the rural consumer buying behaviour in UP and Bihar. My learning at Agri-Lab in campus was a hands-on experience of agriculture. It is now helping me immensely in my work at UPL-Advanta Seeds.

**- Nitish Wange (PGDM-Rural Management 2016 - 18, WeSchool Mumbai)
Territory Sales Manager, Advanta Seeds, UPL Ltd.**

”

“

During "Exploring the Grassroots" I learnt, how to empathize with the people and understand their problems, easily adapt to the environment and developed agility which are very important for today's manager along with other basic skills. These skills are helping me immensely in my current job while I interact with different stakeholders – dealers, retailers and farmers.

**- Pranjalee Choudhari (PGDM-Rural Management 2017 - 19, WeSchool Mumbai)
Business Analyst – CRM, UPL Ltd.**

Program Summary

The growth of rural India signifies Brand India. The future of business is the vast hinterland of countryside. The rural managers are innovators who strategically lead and sustain business in this hinterland, be it from agricultural companies to auto production plants to FMCG etc. The curriculum takes into account the practical rural market situation and management perspective. The program seeks to groom students into a person who is empathetic, has leadership qualities & managerial capabilities and has an innovative mindset.
